Operator Resources on Tariffs, No Tax on Tips, and Immigration

The big picture: Some of the biggest national developments impacting our industry include tariffs, no tax on tips legislation, and immigration enforcement.

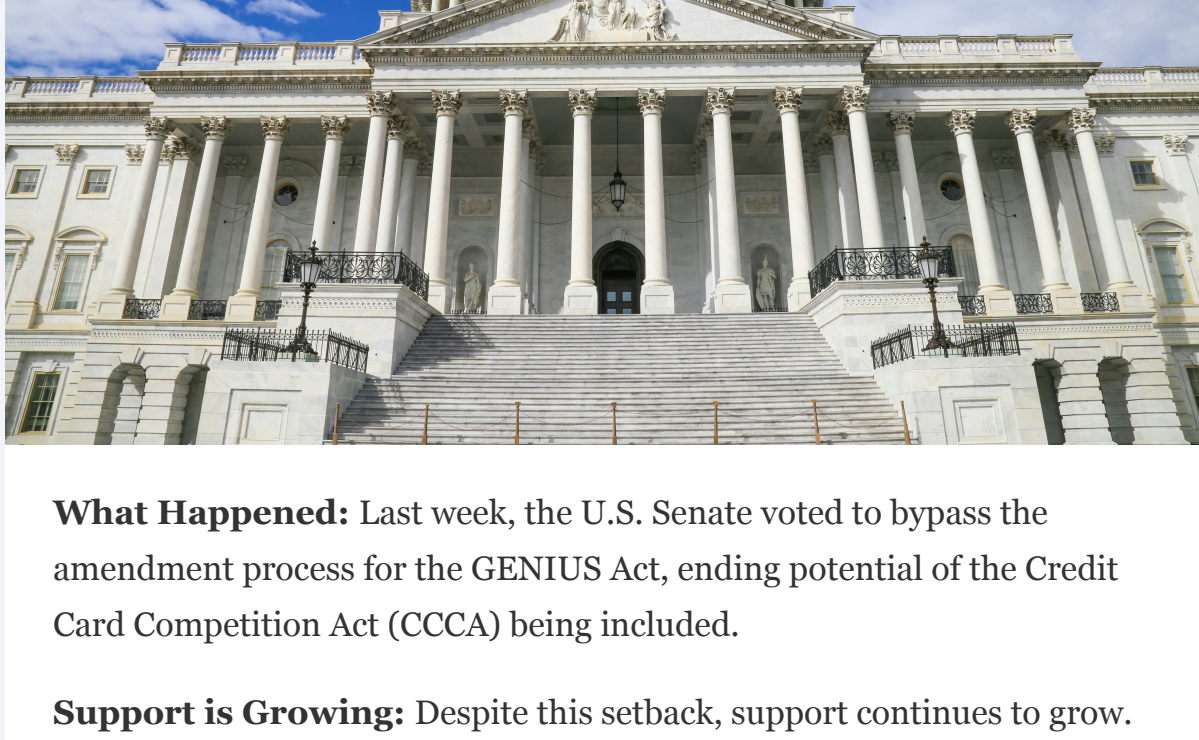

- **Don't blink:** We are committed to keeping you informed on the ever-changing landscape of these developments and will update you as we learn more so that you stay informed.

How we can help: We've gathered resources regarding each development and have linked them below.

- **No Tax on Tips Legislation:** Although the legislation has not passed yet, we are confident that it will in some form. Until that happens, we have compiled an informative Myth vs. Facts one pager on what we know thus far as to what this initiative means for Minnesota's hospitality businesses. [Click here](#) to access this one pager.
- **Tariffs:** [Click here](#) to read the current data on how these ever changing policies are impacting our restaurant, catering, hotel, and resort businesses.
- **Immigration:** Earlier this year, our partners at the National Restaurant Association released a document offering guidance on how restaurants can be prepared for immigration enforcement. [Click here](#) to access this document.

Credit Card Competition Amendment Not Included in GENIUS Act

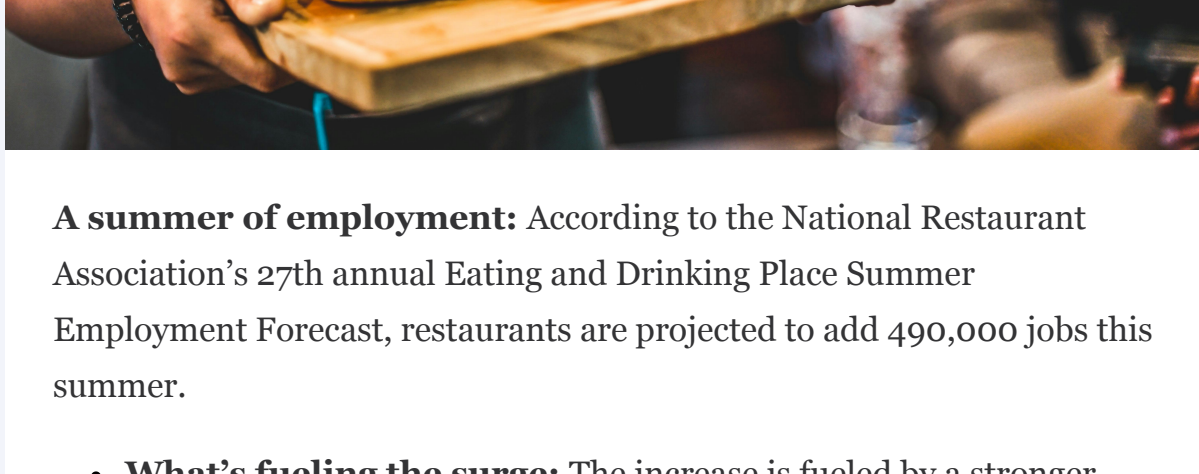

What Happened: Last week, the U.S. Senate voted to bypass the amendment process for the GENIUS Act, ending potential of the Credit Card Competition Act (CCCA) being included.

Support is Growing: Despite this setback, support continues to grow.

- The coalition backing the legislation now includes a wide range of stakeholders, such as [labor unions](#), the [Coalition of Large Tribes](#), the [American Logistics Association](#), and many others.

What's Next: The coalition of CCCA supporters will continue building momentum toward its eventual passage.

News Release: Restaurant Industry Projected to Add 490,000 Summer Jobs

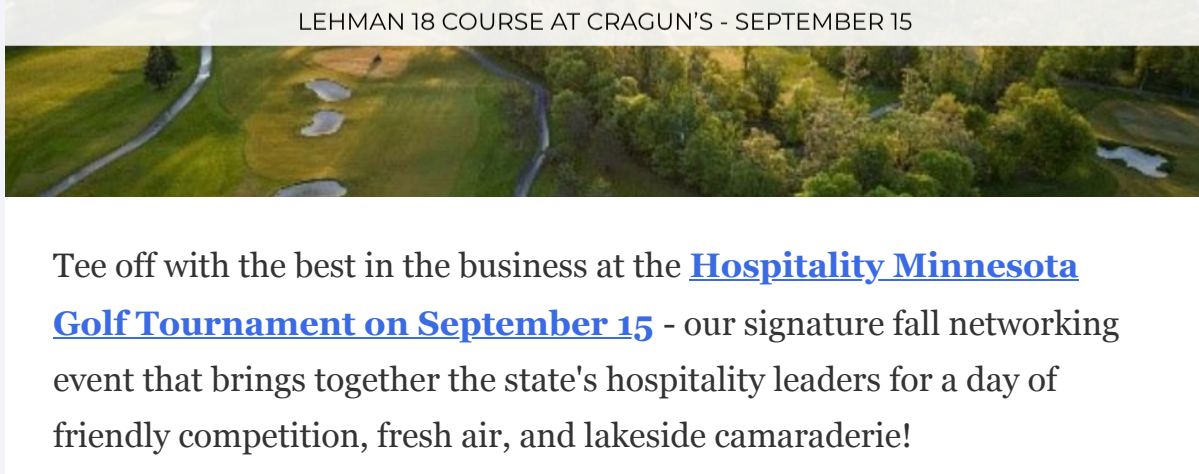

A summer of employment: According to the National Restaurant Association's 27th annual Eating and Drinking Place Summer Employment Forecast, restaurants are projected to add 490,000 jobs this summer.

- **What's fueling the surge:** The increase is fueled by a stronger labor pool of teens and young adults returning to the workforce in numbers not seen in years.

By the numbers: Restaurants are the largest employer of teens, providing a seasonal high of more than 6.2 million in the labor force this April.
