Apprenticeship Funding Available from MN Department of Labor and Industry

Workforce funding opportunity: Apprenticeship grant funding is still available now through April 30, 2026 from the MN Department of Labor & Industry.

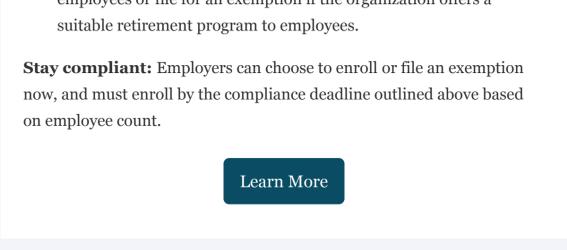

- **What to expect:** This incentive grant funding aims to assist businesses with the costs of starting or expanding a registered apprenticeship program and may be used to cover the costs of employer staff time to operationalize program logistics, develop and instruct related instruction or recruit apprentices.

Why it matters: In addition to helping start or expand a registered apprenticeship program, these grant funds may also be used to purchase tools and supplies or pay for related technical instruction if not covered by the NRAEF or AHLA. Priority will be given to a few industries including hospitality.

- **Don't wait:** Now is the perfect time to start an apprenticeship in your business! Applications are being accepted now on a rolling basis and will continue until all funds have been awarded. For more information, contact [Dillon.](#)

Voluntary Enrollment Now Open for Minnesota Secure Choice Retirement Program

Minnesota Secure Choice Retirement Program is a state-facilitated, employer-supported retirement program that bridges the retirement savings gap for hundreds of thousands of Minnesotans.

Some background: The program will offer simple, automatic and portable individual retirement accounts (IRAs) to help employees build retirement savings through automatic payroll deductions.

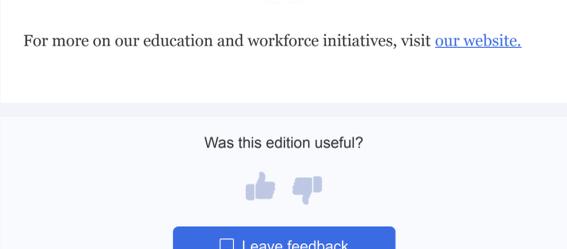

What to expect: Employers with five or more employees receiving Minnesota taxable wages should have received—or can expect to soon receive—either email or postal letter communication from the record keeper, Vestwell.

- **The next step:** Employers will be then required to either register for the Minnesota Secure Choice Retirement Program and set up Roth IRA accounts for all of their part-time and full-time Minnesota employees or file for an exemption if the organization offers a suitable retirement program to employees.

Stay compliant: Employers can choose to enroll or file an exemption now, and must enroll by the compliance deadline outlined above based on employee count.
